Objective:

I am a hardworking, honest, and self-motivated **Full-Stack (React & Node) Developer** with strong knowledge in **React.js, Redux, Node.js, Express.js, MongoDB, JavaScript, HTML, CSS**, and **mobile-responsive web development**. I have experience building both **frontend and backend** applications, creating RESTful APIs, and integrating databases. I have already completed several projects that demonstrate my ability to build dynamic, user-friendly, and scalable web applications.

Skills:

Expertise:

- React ● React Router ● HTML5 ● CSS3 ● Bootstrap-5 ● Tailwind ● Daisy UI ● JavaScript ● Typescript ● Firebase
- Node JS ● MongoDB ● Mongoose

Comfortable:

- Netlify ● Vercel ● ExpressJs ● Redux ● Next Js

Familiar:

- Rechart ● Axios ● React Query

Projects

Parcel Delivery Service

A **Node.js, Express, TypeScript**, and **MongoDB** based backend system for managing parcel delivery operations. It includes **role-based access control** for Senders, Receivers, Admins, and Super Admins with **JWT** and **Google OAuth2** authentication.

The system supports parcel creation, tracking, and management with **pagination, filtering**, and **Zod validation** for secure and efficient data handling.

Tech Stack: Node.js, Express.js, TypeScript, MongoDB, Mongoose, JWT, Google OAuth2, Zod, Bcrypt.js

Library Management System

A full-stack MERN application for managing books and borrow records.

Users can create profiles to add, edit, delete, and borrow books with real-time updates and validation.

Includes responsive UI, auto stock updates, and aggregated borrow summaries for efficient management.

Frontend Tech Stack: React, Redux Toolkit, TypeScript, React Router, Tailwind CSS, DaisyUI, Sonner, Vite, ESLint

Backend Tech Stack: Node.js, Express.js, TypeScript, MongoDB, Mongoose

YouChatt

A full-stack MERN real-time chat application.

Users can create accounts, send/receive instant messages, share images, and track online/offline status in real time.

Includes responsive UI, real-time updates via Socket.IO, profile picture uploads, and persistent message history.

Frontend Tech Stack: React, Zustand, React Router, Tailwind CSS, DaisyUI, React Hot Toast, Vite

Backend Tech Stack: Node.js, Express.js, MongoDB, Mongoose, Socket.IO, JWT Authentication, Cloudinary

Education

MBA(Masters in Management)

Courses

● Complete web development course with Jhankar Mahub - Programming Hero (Batch 6)

I learned React, NodeJS, Express, MongoDB, JavaScript, HTML, CSS, and many frameworks for developing a web application from this course.

Language

- Bengali (Native)
- English (Comfort)
- Hindi (Comfort)
